Ibiza (Islas Baleares)

The beaches

Its turquoise water beaches transmit relaxation and discretion. You can discover some of the most peaceful ones with a pleasant sailing trip from the ports of Ibiza, Sant Antoni de Portmany and Santa Eulària des Riu.

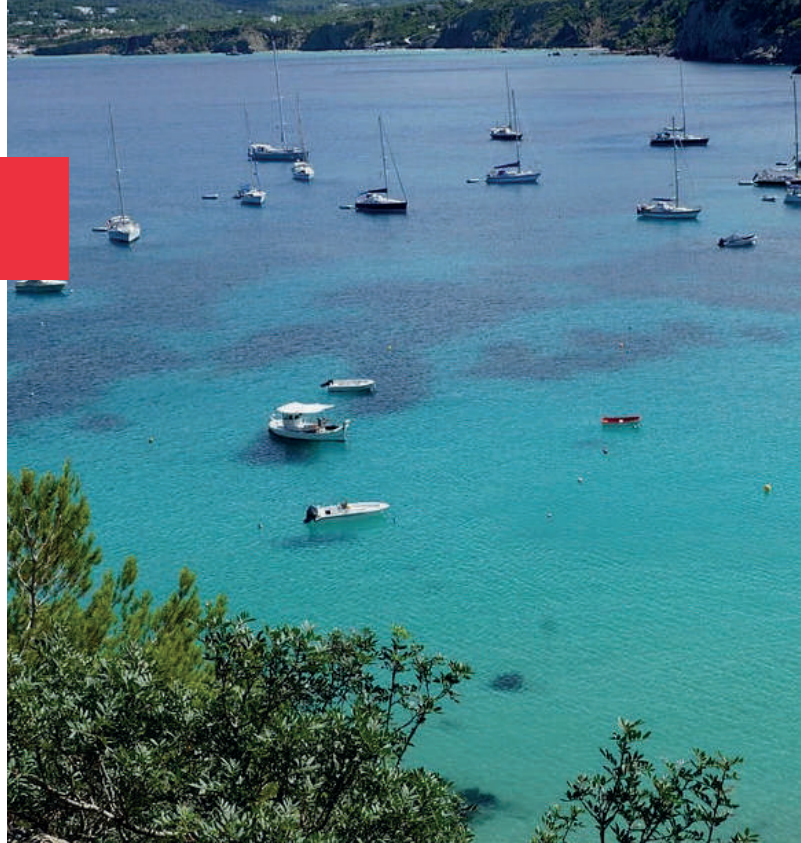

Naturaleza

Ibiza's surroundings are home to other landscapes of great interest. For its rural charm, the Benimussa valley and the Pla de Corona plain stand out. In addition to its country houses and its abundant olive groves or vines, they are especially attractive in winter because of the thousands of almond trees that cover the landscape in white.

It is also recommended to visit the Natural Park of Ses Salines. The salt flats extend over the south of Ibiza and the north of Formentera, and the sea that bathes them is the habitat of a large part of the oceanic posidonia prairies.

Culture

For its part, the cultural World Heritage of Ibiza is concentrated mainly in the upper area of Eivissa, Dalt Vila, considered the best preserved coastal fortress of the Mediterranean. It is one of those places that can be discovered by taking short walks through narrow streets and squares.

Where is it located?

It borders the province of Tarragona to the southwest, the province of Lérida to the northwest, Gerona to the northeast and the Mediterranean Sea to the southeast.

The Instituto de Idiomas is the first language school in Ibiza. Accredited by the Instituto Cervantes and with a privileged location in the center of Ibiza town. Due to its wide experience and program offer, it has become the biggest reference in the educational field on the island of Ibiza.

Mallorca (Islas Baleares)

Culture and traditions

One of the most pleasant cities in Spain for walking is Palma. Besides visiting its Cathedral and Bellver Castle or visiting the Es Baluard museum or the Pilar and Joan Miró Foundation, it is worth going into its courtyards, eating in restaurants with cuisines from all over the world, shopping in the exclusive stores on Passeig del Born or sitting in the sun in its cafés.

Much to be discovered

The traveller will find charming villages such as Valldemossa, in whose charterhouse both the composer Chopin and the journalist George Sand stayed. Nearby is Sóller, which can be reached by a vintage train. Other options are Deià and the impressive gardens of Son Marroig, Pollença and its lively port or Alcúdia and its unspoilt coves.

Weather

The mild climate is always present and in any of its corners the purely Mediterranean lifestyle and gastronomy accompany the traveler.

Where is it located?

It is the largest island of the Balearic archipelago, which, together with Menorca, Ibiza and Formentera, forms a single-province autonomous community.

Pamplona (Navarra)

Paths of history

Ways create history and foster traditions, and in the Kingdom of Navarre the Camino de Santiago stands out as having left an indelible mark on customs and heritage. Other routes with centuries of tradition are the Roman roads and gullies; Navarre also offers a multitude of small and large trails.

Land of Diversity

It caresses the steep green silhouette of the Pyrenees and observes how it undulates and loses strength as it approaches the Ribera. It smells of tradition that the Jacobean Route transmits, from the legendary Roncesvalles to the city of Viana. Savour the colors of the festival: white and red invade the Sanfermines and the summer celebrations. Don't lose sight of the varied gastronomy of exquisite meats and tasty vegetables from the Ribera's garden, accompanied by the excellent wines of the region.

Festive atmosphere

The main one of all takes place in Pamplona. With the "chupinazo" on July 6th the Sanfermines begin and the streets are filled with a sense of brotherhood in the midst of the fiesta and joy. The northern festivities fill the streets with their dances and exhibitions of rural sports in contrast to the southern festivities, where the heifers are the protagonists.

Where is it located?

It is a municipality and Spanish city, capital of the Community of Navarra.

San Sebastián (Guipúzcoa)

La ciudad

The urban layout of San Sebastian unfolds overlooking La Concha Bay. Mount Igeldo marks the boundary at one end, an unbeatable vantage point for enjoying the views over the city. At its foot is the Punta Torrepea, where the "Wind Comb", a sculpture by the famous Basque artist Eduardo Chillida, is installed.

Gastronomy

One of the best ways to tour their neighborhoods and get closer to their culture is through their cuisine. Basque cuisine has international prestige thanks to the quality of its raw materials and the expertise of its chefs, both traditional and imaginative.

Nature

Rivers and valleys guide us through the interior of the province. Following the course of the Oria, the historical towns of Tolosa, Ordizia and Lazkao preserve important monumental legacies. The Urola Valley contains the old town and spa of Cestona/Zestoa, the medieval town of Azpeitia and the Sanctuary of St. Ignatius of Loyola, a Baroque site at the center of Basque religiousness.

Where is it located?

It's a Spanish city and municipality located on the coast of the Bay of Biscay and 20 kilometers from the border with France. The city is the capital of the province of Guipúzcoa.

Santiago de Compostela

(Galicia)

The Camino de Santiago

For centuries, thousands of pilgrims have walked the Camino de Santiago every year with a dream to fulfill: to reach the capital of Galicia and enter its now mythical Cathedral. Tradition says that the remains of the apostle Santiago, discovered in the 9th century, are buried in this monument.

Much to discover

Santiago de Compostela is a very lively city with many other reasons to charm the traveller, whether he is a pilgrim or not: countless restaurants and bars in which to savour the exquisite seafood of Galicia, a historical center declared a World Heritage Site by UNESCO, contemporary art proposals... There are many plans to be made in this city that combines its history with a younger and more modern face.

Many say that doing the Camino and finally arriving in Santiago is a life-changing adventure. Of course, this city has something to offer.

Where is it located?

Santiago de Compostela is a municipality and city in Spain, capital of the autonomous community of Galicia. It belongs to the province of La Coruña.

Iria Flavia Academy was created in 1994 in Santiago de Compostela (a UNESCO World Heritage city). It is located 2 minutes from the historical center and very close to the main monuments. It is a small and familiar school, and we strive to offer a personalized attention to all our students. One of our hallmarks is the wide variety of specialized programs we offer, especially for school or university groups and for teachers of Spanish as a foreign language. In Santiago de Compostela you will find a quiet, totally safe and very welcoming city. Fun and dynamic, with a very manageable size (90.000 inhabitants) and without crowds of students. Our center will organize all your stay and accommodation, and will have as its ultimate goal that you learn and develop your Spanish skills by living and speaking from day one.

Tenerife (Islas Canarias)

An island to discover

Tenerife is one of the Canary Islands and these are known as the lucky islands. Reasons? From its springtime climate, its volcanic nature and relaxing beaches, to its colonial-style historical centers, its restaurants that blend haute cuisine and popularity, and its many special accommodations that ensure the smile of everyone who visits.

The natural environment

The natural environment is one of the great attractions of Tenerife. Its volcanic origin favors unique scenarios that you can discover with visits of rural charm in the north of the island, with a route by its volcanoes or with a route by the National Park of the Teide (declared World-wide Patrimony). The Orotava Valley, the rural areas of El Palmar or Teno Alto are areas where you can enjoy nature in tranquility.

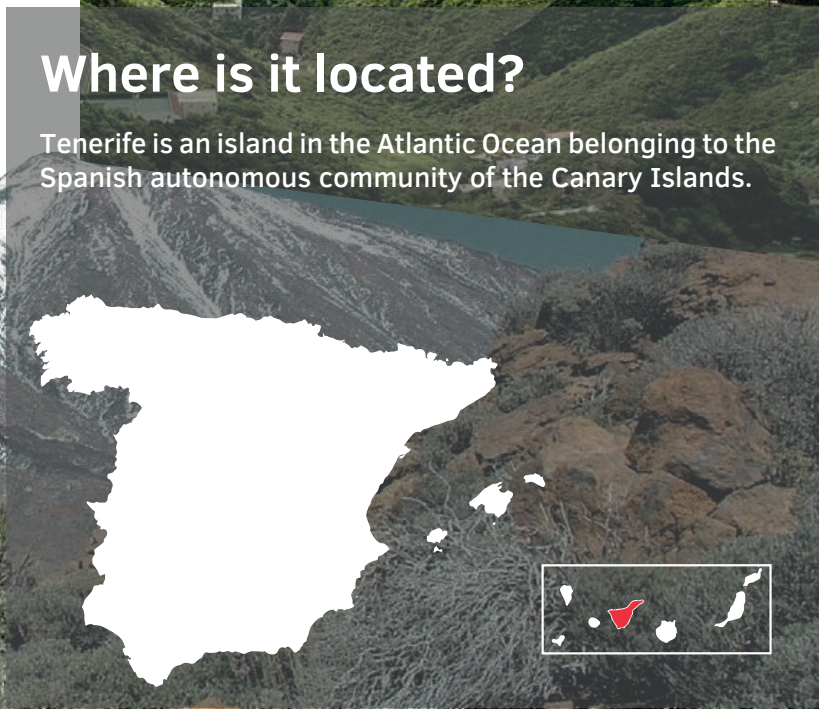

Its culture

The culture of Tenerife is still unknown to many. It is mainly concentrated in San Cristóbal de La Laguna and Santa Cruz. The former is a quiet city that is attractive for walks through its wide pedestrian areas between historic buildings of marked colonial style and Santa Cruz, a modern and open city.

Where is it located?

Tenerife is an island in the Atlantic Ocean belonging to the Spanish autonomous community of the Canary Islands.
